LX

HAIR REPLACEMENT EXPERTISE

Two essentials.
Care in every step.

Hair system attachment and scalp residue removal, with two products made in France to support professional practice.

01 / ATTACH

Hair system adhesive LX

40 ml · Lace & Poly

An adhesive intended to secure hair prostheses. Applied to the scalp in thin layers, it turns clear as it dries.

For hair systems, wigs and lace fronts: check the attachment method intended for the base.

Explore the product →

02 / CLEAN

Adhesive remover LX

115 ml · Scalp application

A remover intended to clean adhesive residue from the scalp. The spray bottle supports the cleaning routine after the hairpiece has been removed.

Its intended use on the scalp does not imply compatibility with every hair system base.
